Education

📖 Advanced Cybersecurity (POLITEHNICA)

- Master's - Computer Science
- Taught in english
- 2025 - 2027

📖 Cybernetics, Statistics and Economic Informatics

- Bachelor's - Computer Science
- Grade 9,66 | top 3 in class
- ASE
- 2021 - 2024

📖 Management (ASE)

- Bachelor's - Management
- 2015 - 2018

Languages

English: B2 (upper intermediate)

Romanian: native

Technical Skills

Programming languages: Java, JavaScript, TypeScript, SQL

Frameworks: Spring Boot, Spring Security, React, TailwindCSS

Databases: H2, PostgreSQL, Oracle RDBMS

DevOps & Cloud: Kubernetes, Docker, AWS EC2, Jenkins, CI/CD

Testing & Tools: JUnit, Postman, TestRail, Jira, Confluence

Tools: Git, GitHub, Vite, Linux, IntelliJ IDEA, OpenAI API, Maven, Gradle

Profile

Currently pursuing a master's degree in Advanced Cybersecurity at POLITEHNICA University. Graduated top 3 in my class with a bachelor's degree in computer science from the Faculty of Cybernetics, Statistics and Economic Informatics. Graduated with a bachelor's degree in Management (ASE). Hands on experience with full-stack web development (Java, Spring, React). Worked 6 years in QA game development at Ubisoft.

Experience

Research Assistant, *Institute of Cellular Biology and Pathology "Nicolae Simionescu"*, Mar 2023 - Present (2 years)

- Supporting the research efforts of scientists by monitoring experiments, preparing materials and/or samples and maintaining equipment and supplies.

Senior QA Tester, *Ubisoft*, Feb 2017 - Jan 2023 (6 years)

- Experience with **Jira**, **Confluence** and **TestRail**
- **Coordinated** a team of **15 people** by allocating tasks, monitoring progress and providing guidance and support to team members
- Performed test cases on all **major gaming platforms** and mobile (**iOS** and **Android**)

Projects

- Spring security OAuth2 authentication server **full-stack web application** (Feb 2025)

A full stack web app that configures and implements Spring Security OAuth2 login with a dedicated authentication server. Secure backend **REST API** with **Java**, **Spring Boot**, **Spring Security**, **OAuth2 Authorization Server**. Deployed on **AWS EC2** using **Kubernetes (K3S)**, **Docker** with **private Docker registry** and **Gradle** for build automation. **Vite React** frontend using **TypeScript**, **TailwindCSS**, **react-oidc-context**. Automated **CI/CD** pipeline using **Jenkins**. **Git** and **GitHub** for versioning.

- Portfolio **front-end and deployment web project** (Apr 2025)

Personal projects website using **Vite**, **React**, **TypeScript** with scroll-based animations using **Motion**, styling with **TailwindCSS**. Hosted on **AWS EC2** using **Kubernetes (K3S)**, **Docker** and **private Docker registry** with automated **CI/CD** pipeline using **Jenkins**. **Git** and **GitHub** for versioning.

- HR management **full-stack web application** (May 2024 - Oct 2024)

Management of teams, payroll, leave, and performance evaluation.

Secure backend **REST API** with **Java**, **Spring Boot**, **Spring Security (JWT, Authentication)**, **H2 relational database**, **Maven** and interactive frontend using **React**, **PrimeReact** and **Axios**. **OpenAI API** for automated feedback. Developed using **IntelliJ IDEA IDE**.

- Ride Sharing **Android front-end** (Nov 2023 - Dec 2023)

Android application used for scheduling ride sharing trips.

University project for the "Mobile devices and applications" course. Developed using Java in **Android Studio IDE**.

- Live TV **Java web application** (Jul 2023 - Aug 2023)

Streams live TV over the internet. Manipulates TV box using infrared through Arduino serial communication with automatic channel list updates.

- Video Games (2020 - 2023)

Developed a 3D fighting game called "Hit8ox" in Lua, publicly praised by DOOM creative director Tom Hall on Twitter (X). Also developed a 2D driving game called "Night Ride".
